SELECTED WORK / 2026

MULTIDISCIPLINARY DESIGNER

VISUALRIF.

CONCEPT TO CODE.

Arif Tariq is an independent multidisciplinary designer working across brand identity, UX/UI, web, print and 3D.

I take projects from research and concept through to design and front-end build — managing clients directly, balancing commercial goals with craft, and delivering human-led work that is considered, usable and built to last.

Recent work spans property platforms for UK and UAE audiences, hospitality and music brands, interactive storytelling and 3D environments — after starting out in agency, at Verb Brands.

UNIESTATE UK

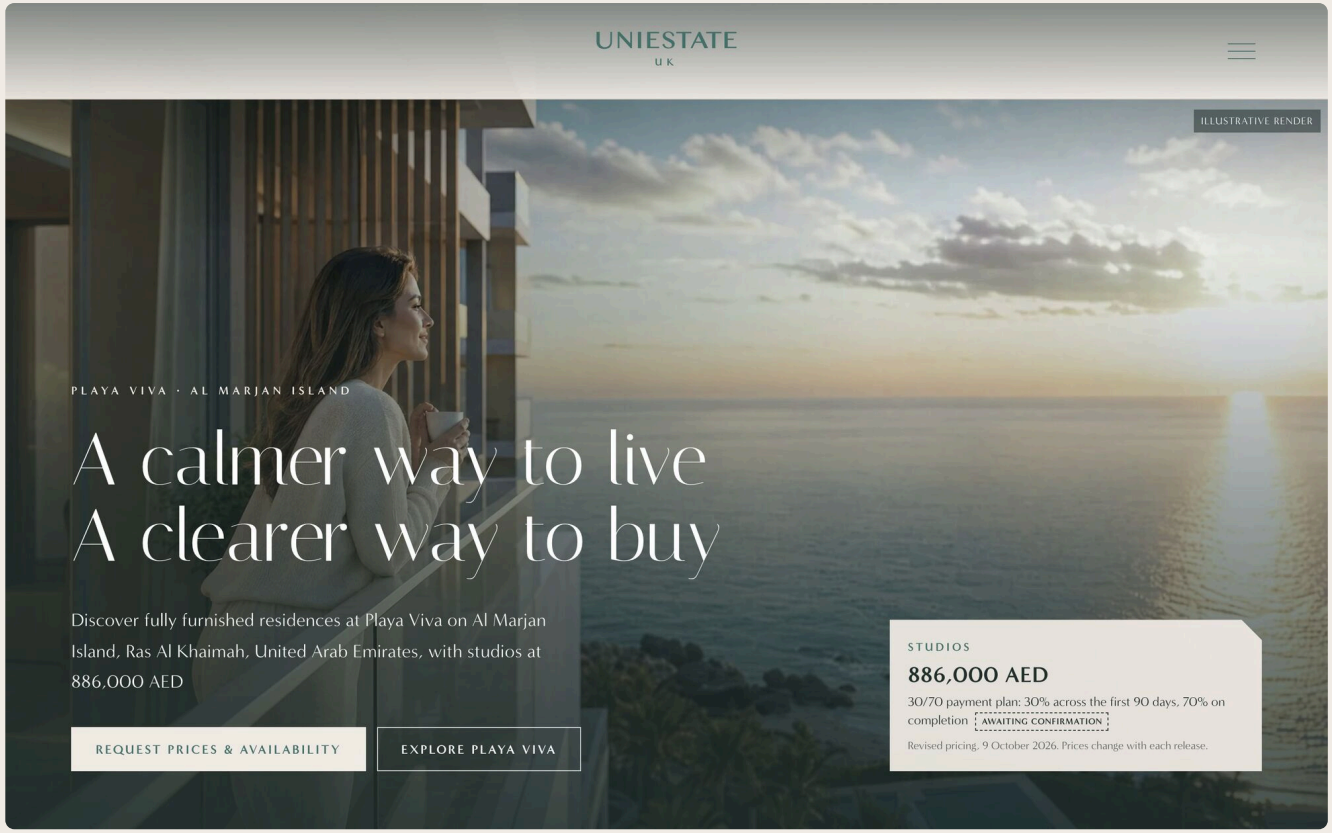

PLAYA VIVA, AL MARJAN ISLAND — FOR UK BUYERS

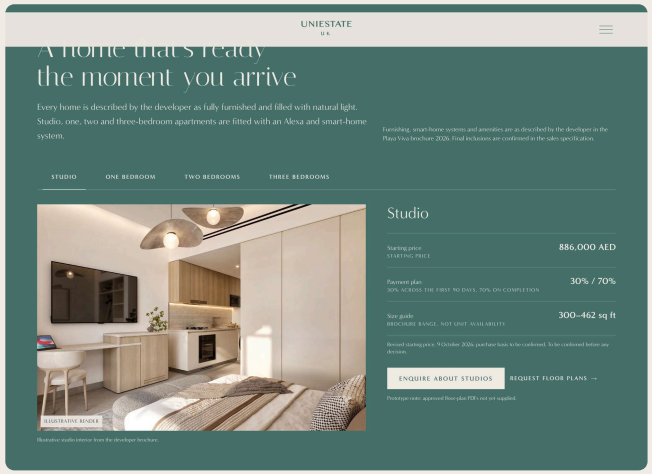

CLIENT	INDUSTRY	YEAR
UNIESTATE	LUXURY PROPERTY	2026 — ONGOING
ROLE	**STATUS**	**PREVIEW**
UX/UI DESIGNER & WEB DEVELOPER	PROTOTYPE — IN CLIENT REVIEW	UNIESTATE-UK.VERCEL.APP ↗

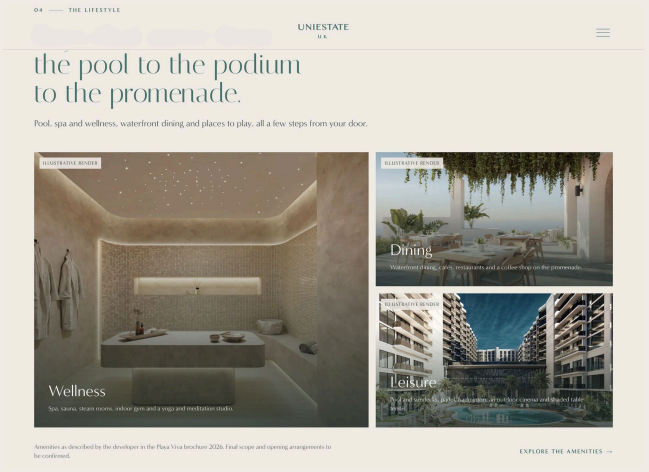

OVERVIEW

A CALMER WAY TO LIVE. A CLEARER WAY TO BUY.

A rebuild of Uniestate's UK-facing website in a "Coastal Editorial" direction, presenting Playa Viva on Al Marjan Island, Ras Al Khaimah, as the flagship development.

THE CHALLENGE

Off-plan property in another country asks a lot of a buyer. The site had to carry luxury storytelling while keeping prices, payment plans and the buying process clear — and say plainly when something is not yet confirmed.

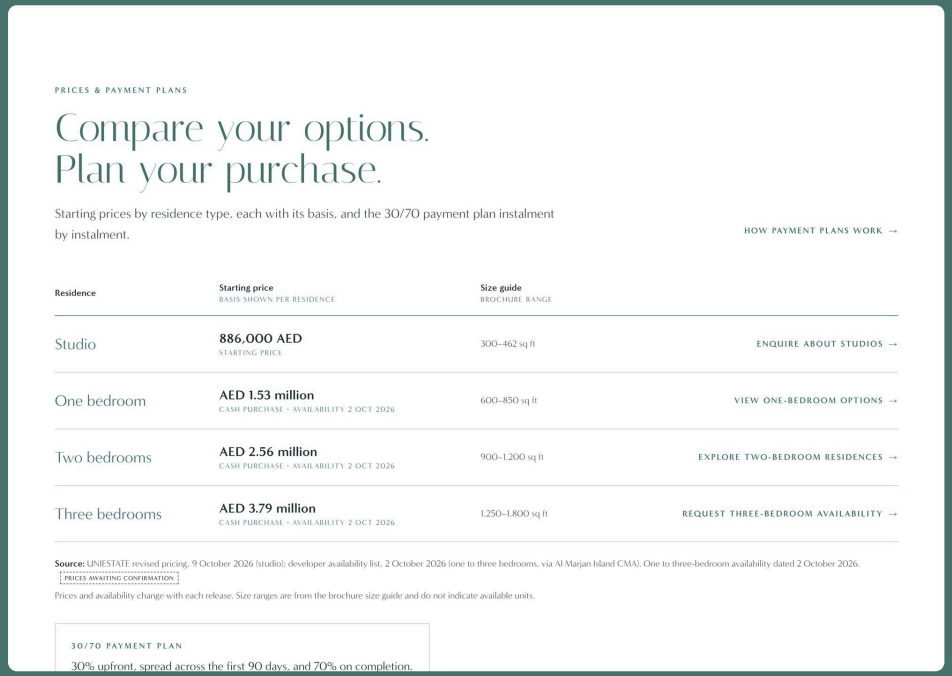

APPROACH

Cinematic, image-led chapters paced like a brochure, built on the developer's 2026 brand toolkit: Deep Teal, Parchment and Frosted Blue, with Minerva Modern for reading. Every price carries its basis, source and date.

INFORMATION ARCHITECTURE · MOBILE-FIRST

PRICES, PLANS AND PROCESS

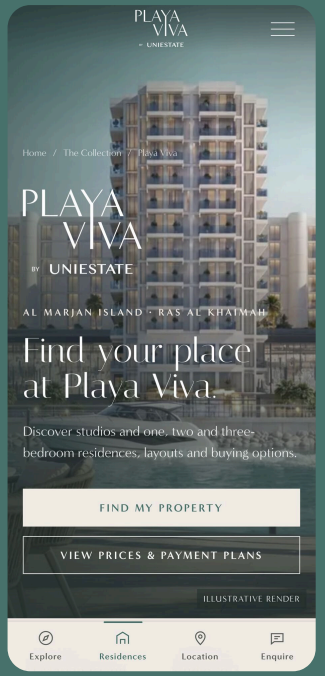

Residence types, starting prices and the 30/70 payment plan are compared in one structured table, while mobile gets its own navigation: a persistent bar for Explore, Residences, Location and Enquire.

INVESTINUK

UK PROPERTY INVESTMENT FOR UAE INVESTORS

CLIENT INVESTINUK	INDUSTRY PROPERTY INVESTMENT	YEAR 2026 – ONGOING
ROLE UX/UI DESIGNER & WEB DEVELOPER	PLATFORM RESPONSIVE WEB	LIVE INVESTINUK.UK ↗

OVERVIEW

ONE PLATFORM, ONE JOURNEY

A premium digital platform bringing UK property opportunities, investor education, case studies and enquiry journeys together — designed for international investors, including those based in the UAE.

> **POSITIONING**
>
> *A premium investment platform that reads as considered rather than promotional — measured, evidenced and calm.*

THE CHALLENGE

Property investment, complex information, an international audience and the need for trust. The task was to turn a potentially complicated journey into one that feels structured, credible and easy to navigate.

APPROACH

Earn trust, then ask. Credibility and education come before any opportunity, and the enquiry sits last. A restrained editorial system — a serif display voice, a neutral interface face and a bronze accent reserved almost entirely for action — keeps the tone measured rather than promotional.

INFORMATION DESIGN

Every figure is labelled calculated, estimated or projected. Where a value is unconfirmed, the index shows a dash rather than an estimate.

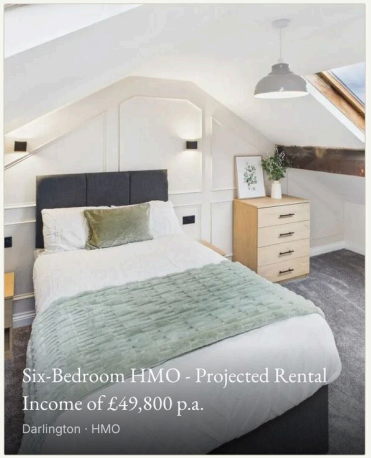

06 — PROJECT INDEX

Every project, in one index.

Location, strategy, bedrooms, property cost and projected income for each project. Where a value has not been confirmed it is shown as a dash - never estimated.

All case studies →

PROJECT	LOCATION	STRATEGY	BEDROOMS	PROPERTY COST	INCOME PRODUCING	
01 Six-Bedroom HMO - Projected Rental Income of £49,800 p.a.	Darlington	HMO	6 en-suite	£175,275	£49,800 p.a. PROJECTED	View project
02 Six-Bedroom HMO - Projected Rental Income of £50,400 p.a.	South Shields, Tyne and Wear	HMO	6 en-suite	£137,850	£50,400 p.a. PROJECTED	View project
03 Six-Bedroom HMO - Projected Rental Income of £48,300 p.a.	Gateshead	HMO	6 en-suite	£182,140	£48,300 p.a. PROJECTED	View project
04 Six-Bedroom HMO - Projected Rental Income of £53,400 p.a.	Stockton, Durham	HMO	6 en-suite	£128,300	£53,400 p.a. PROJECTED	View project
05 South Tyneside, Tyne and Wear	South Tyneside, Tyne and Wear	HMO	-	-	-	Details to follow
06 Jesmond, Newcastle upon Tyne	Jesmond, Newcastle upon Tyne	HMO	-	-	-	Details to follow

CHAPTER 01 — THE LANDING PAGE

CONVERSION & CAMPAIGN

A conversion-focused landing page for paid campaigns — taking ownership of an active build midway through and carrying it to delivery.

THE CHALLENGE

After months of development the page was still incomplete, lacked mobile optimisation and wasn't ready for paid traffic — risking conversions, brand credibility and lead generation.

THE RESPONSE

Combining traditional design with AI-assisted tools, a Figma Make prototype produced a fully functioning page with usable code — a 1:1 proof of how the final build should be delivered.

OUTCOME

A professional, conversion-driven landing page that continues to support ongoing Google Ads campaigns and lead generation.

STORYBOARD — MIDJOURNEY

Authentic Swiftrooms photography, sequenced frame by frame and developed into moving visuals.

CHAPTER 02 — THE PLATFORM

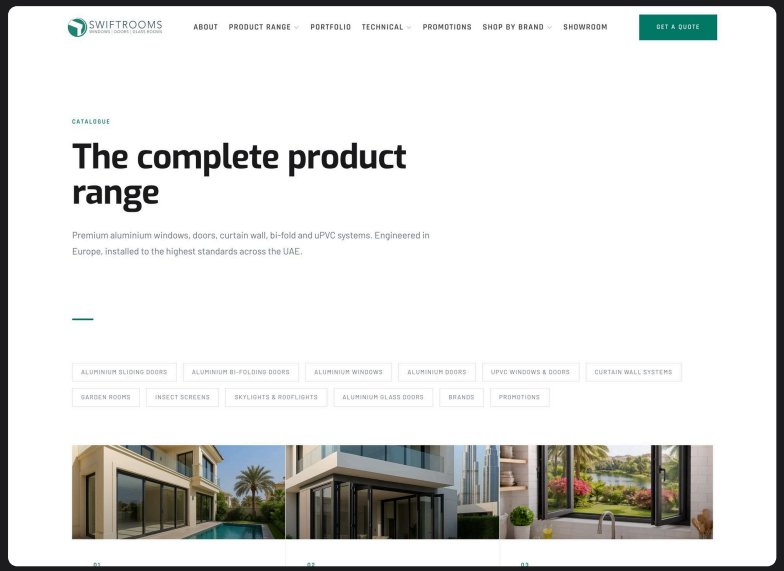

SIMPLE FOR SOME, DEEP FOR OTHERS

Ten product categories, manufacturers, UAE case studies and a technical layer — organised to stay simple for homeowners while giving architects and developers the depth they need.

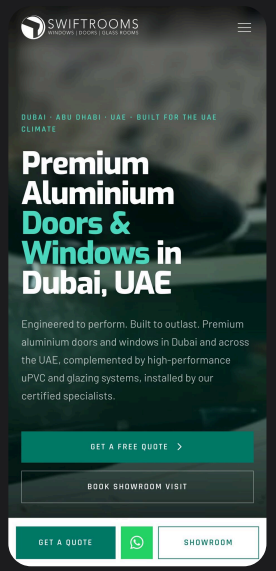

01
DISCOVER
Understand Swiftrooms, explore projects and discover what's possible.

02
EXPLORE
Browse systems, manufacturers, technical information and installations.

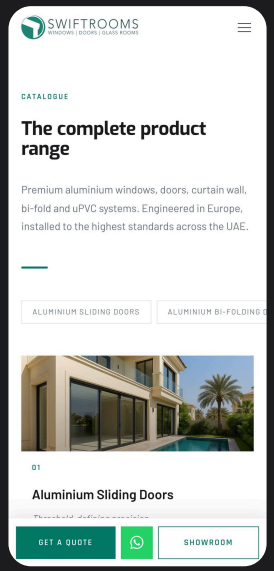

03
ENQUIRE
Request a quotation, speak to the team or book a showroom visit.

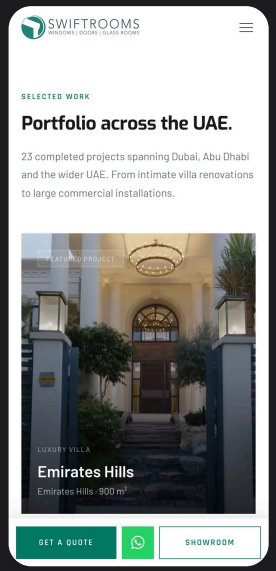

CATALOGUE — TEN CATEGORIES

PORTFOLIO

DELIVERABLES

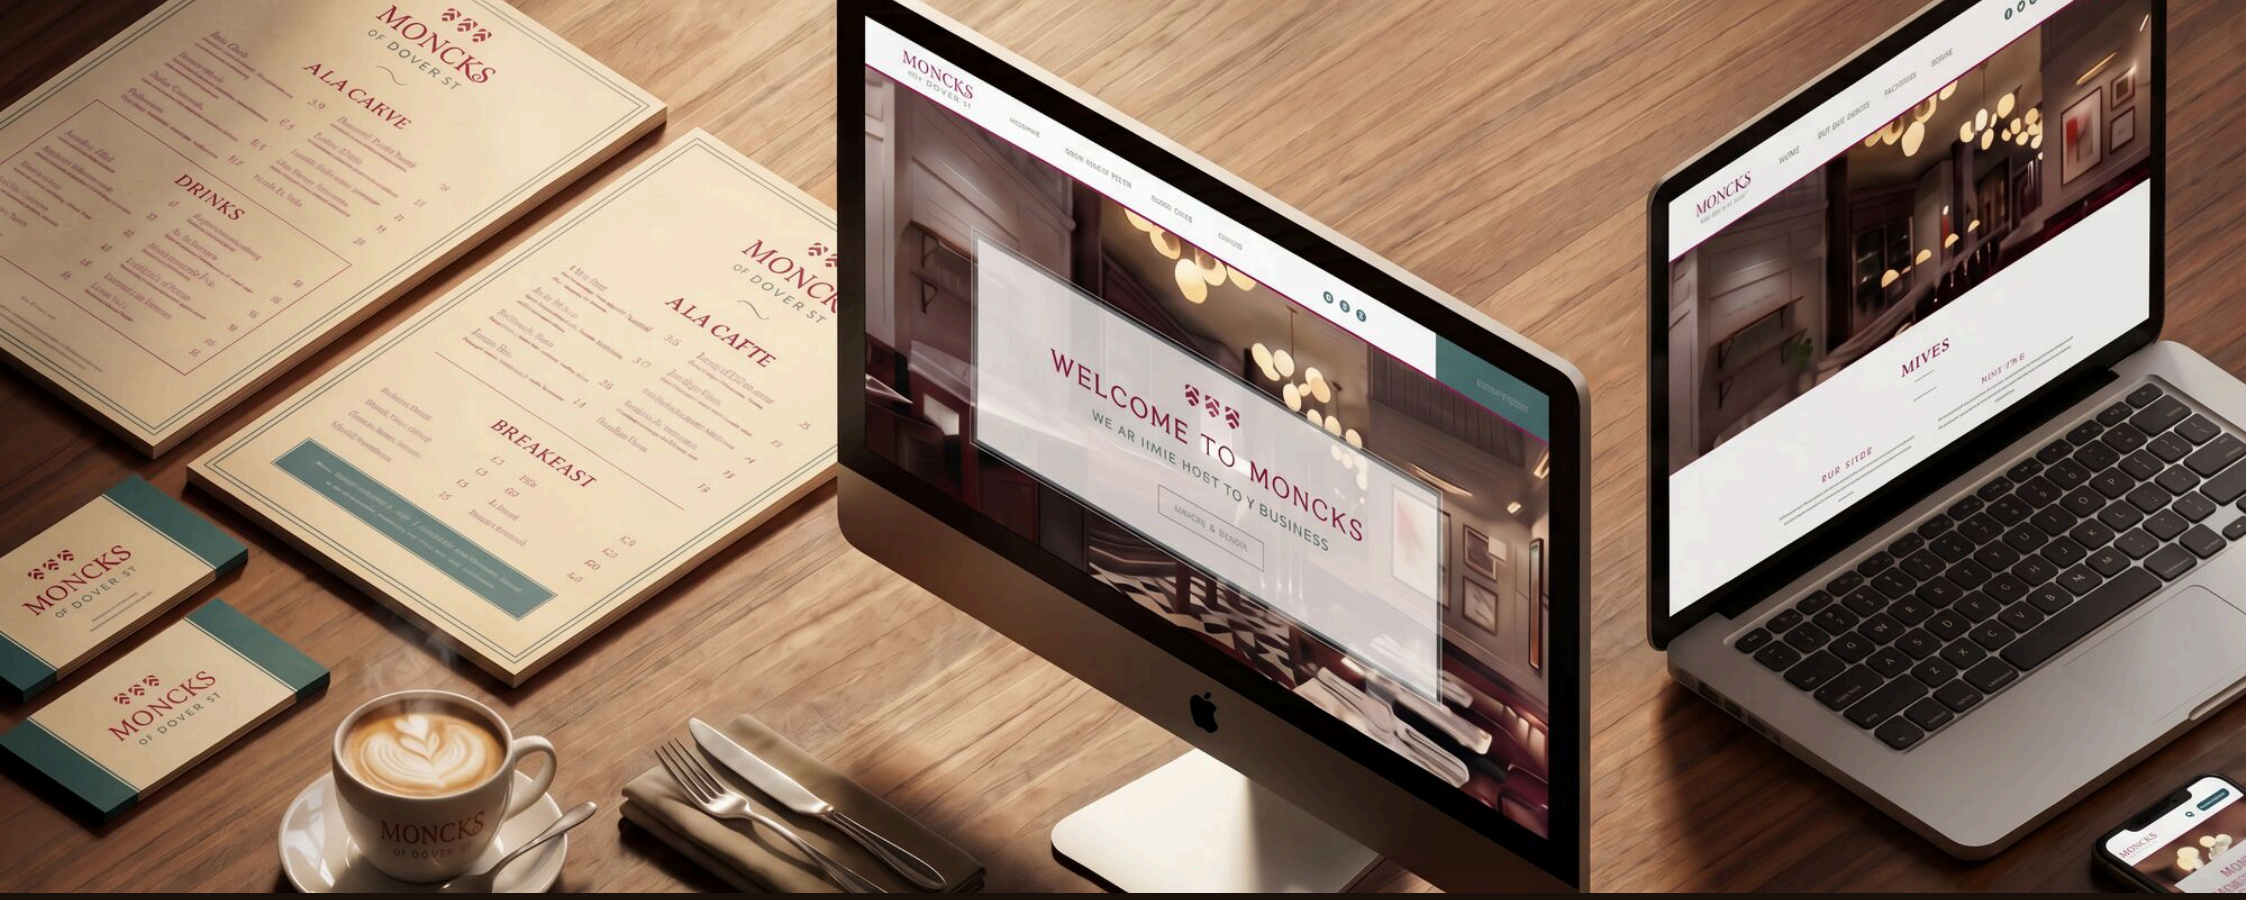

- Digital strategy
- Information architecture
- UX & UI design
- Guided product selector
- Enquiry & showroom flows
- CMS architecture
- Responsive web design
- Web development

THE RESULT

One coherent system that works for a homeowner discovering glazing for the first time, while giving architects, developers and technical clients the depth they expect.

MONCKS OF DOVER STREET

A MAYFAIR BRASSERIE, DELIVERED IN ONE MONTH

CLIENT	AGENCY	YEAR
MONCKS OF DOVER STREET	VERB BRANDS	2019

ROLE	INDUSTRY	LOCATION
APPRENTICE / JUNIOR DESIGNER	LUXURY HOSPITALITY	MAYFAIR, LONDON

OVERVIEW

HERITAGE, TRANSLATED

A refined 15-page brochure website for a premium Mayfair brasserie — reflecting its identity, heritage and interiors, with reservation integration for guests.

THE CHALLENGE

Creating a digital identity for a relatively new brand with a strong, recognisable name — drawing on Christopher Monck and Dover Street's links with luxury fashion, art and culture.

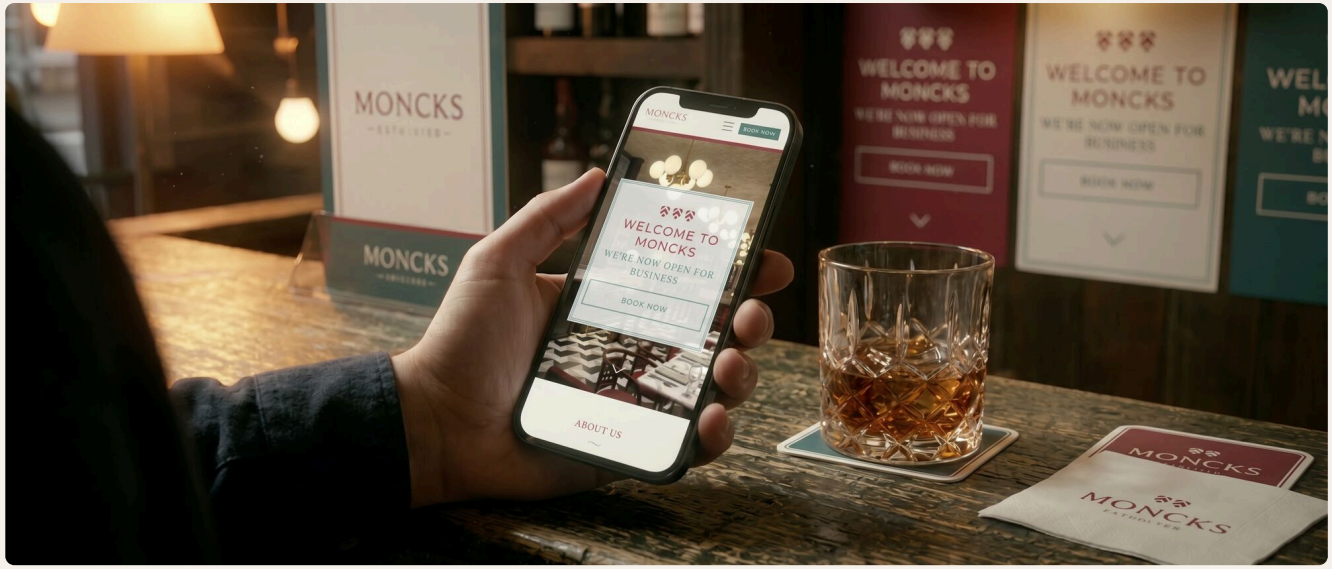

APPROACH

Research from the sitemap, functional specification, brand guidelines and interior references, merged into considered layouts, typography and imagery that carry the atmosphere of the room online.

RESPONSIBILITIES

- UX/UI design
- Art direction
- Visual research
- Responsive design
- Layout & interaction
- Developer collaboration

INTERACTIVE STORYTELLING · WEB3 CAMPAIGN

ALWAYS FIRST

SUNIL GAVASKAR

A Web3 and NFT experience honouring the cricketer's career — a website, virtual gallery and collectible series brought together with a social campaign for the launch.

The challenge was making a complex NFT concept clear and engaging. Research and mind mapping led into a two-week design sprint that unified the site, NFT storytelling and social assets under one direction.

NFT COLLECTIBLES — FOUR OF THE SERIES

DIVERSION AUDIO

OVERVIEW

The first visual identity for a UK Drum & Bass and Jungle collective — rooted in underground rave culture, live performance and community.

The logo was refined from complex concepts to a bold, adaptable mark: chevron-like forms that guide the eye back to the word "Diversion" — redirecting people towards the music, the culture and each other. The identity was later seen at Boomtown Fair and Volks Nightclub.

EXPLORATION — COMPLEXITY FIRST, THEN STRIPPED BACK

BRAND IDENTITY · PRINT

THE HAIRY BASTARD

A complete identity for an independent barbershop at 80 Brick Lane, London — logo, typography, colour and print for the launch.

Brick Lane's street map is mapped into a man's head silhouette: a mark that is both a portrait and a postcode. On the card the map runs full-bleed, lifted in spot UV from a matte charcoal base, with the layout set on the golden ratio.

DESIGN AND BUILD, ONE HAND.

The same person carries a project from first question to launch, so decisions made in research and design survive into production — nothing is lost in a handover.

01
RESEARCH
Audience, market and brand — mapped before anything is designed.

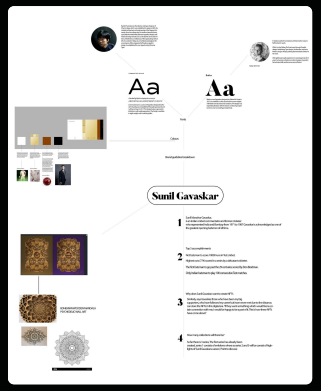

02
STRATEGY
Sitemaps, user intentions and content structure set the order of the argument.

03
CONCEPT
Sketches and early iterations test the idea quickly and cheaply.

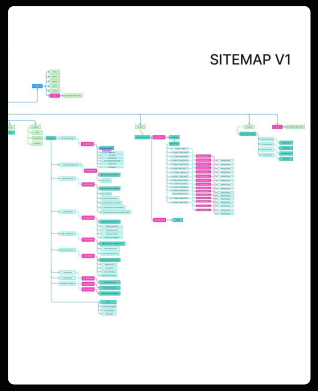

04
DESIGN
Type, colour and components defined once, as a system, in Figma.

05
DEVELOPMENT
The same tokens built into Next.js, React and Tailwind CSS components.

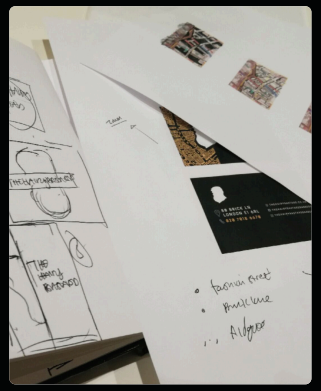

06
DELIVERY
Responsive testing, enquiry journeys and launch on Vercel.
